

Batch Number: 2018_CSE_08

Instructor's Name : Mrs. Ashwini

Smart Garbage Management System

01 Mar 2019

Session 6

In this Session we completely dedicated ourselves for the structural design

We came to a conclusion to buy a dustbin which has separate compartment for dry waste as well as wet waste as suggested during our first review.

In further classes we are going to design a circuit according to our structure of the dustbin.
