

Batch Number: 2018_CSE_08

Instructor's Name : Mrs. Ashwini

Smart Garbage Management System

22 February 2019

Session 4

Understood the semantic circuit of the servo motor and implemented a code on it.

In this session we constructed the circuit according to our semantic diagram and was successful with the connection and executed the code which was in C language on a Arduino Scale

In further classes we are going to get our prototype of our project.
